

Take Care Of Yourself

Social Distortion

Are you ready?

(Yeah yeah)

Are you ready to rock?

(Yeah yeah)

Do you wanna do it?

(Yeah yeah)

Get down on it?

(Yeah yeah)

Marching clock now he don't stop,

Seen it quite a lot

And he says take care of yourself,

Old man sighs, shuts his eyes

And leaves behind another life

Take care of yourself,

Millstones swing, 'grind your thing'

Pay the tax and alimony.

Take care of yourself,

Raise that boy, he'll go far

'Cos he had a real good teacher.

Take care of yourself

Truth don't go, don't go far

Sell a lie to any paper.

Take care of yourself.

Sleep too deep, zombie sleep,

and all alone it has to be.

Take care of yourself.

Peace of mind is hard to find

But he don't mind like you don't mind y'all

Big t don't care that you don't mind

No she don't care and you don't matter

One nine nine Oh here we go

May the next ten break the mould

Take care of yourself

Mister good's gone away

Looking out for number one says

take care of yourself

Did she say where you'd have to stay
When the party's over?
Can you face the longest march to come
Now you know you're not the number one?

Yeah yeah
(Feel all right?)
Yeah yeah
(You know its 'packing in' your mind?)
Yeah yeah
(But the hero says)
Yeah yeah
(I get blind anyway)
Yeah yeah
(Doesn't matter to me)
Yeah yeah
(Whatever you say)
Yeah yeah
(I got more than yesterday)
Yeah yeah yeah
Yeah yeah
