Here on this stainless table
I come inside you and haunt your dreams
Baby I don't mind, you can fake it
But I don't mind, come away with me.You make a godly servant
Protect your bible between your knees
Baby I won't mind, let me play with it
I don't mind, run away with it.The funeral party favorite
I'm the ghost in the human shape
Baby I don't mind if you play with me
I don't mind, run away with me.We'll drink from the waves and feel our souls,
Fall asleep on the graves and seal our souls.
Get drunk on the waves, reveal our souls
Fall asleep on the graves and seal our soulsI know when the angel calls you
You'll cross your fingers then fall asleep
Baby I don't mind if you play with me
I don't mind, come away with meWe'll drink from the waves and feel our souls,
We'll fall asleep on the graves and seal our souls.
Get drunk on the waves, reveal our souls
We fall asleep on the graves and seal our souls.
