

# Sunset Soon Forgotten

## Our Endless Numbered Days

Be this sunset soon forgotten  
Your brothers left here shaved and crazy  
We've learned to hide our bottles in the well  
And what's worth keeping, sun still sinking  
    Down and down  
    Once again  
    Down and down  
Gone again Be this sunset one for keeping  
This june bug street sings low and lovely  
    Those band-aid children  
    Chased your dog away  
She runs, returning, sun still sinking  
    Down and down  
    Once again  
    Down and down  
    Gone again
