

# Unforgettable

## Last Amanda

Come down and take a look at the damage you have done  
Release the memories that I have kept since I was young  
Afraid of whats to come and the secrets that I've found  
I take the easy way and the world starts spinning round round round

Unforgettable

Unforgettable

Behind the pain I'm in there's a feeling of relief  
I can look back with pride and enjoy what I achieved  
I want to thank you but my speech is without a sound  
The end is finally here and my body's falling down down down

Unforgettable (5 times)

Tell me why I'm here  
Give me life and ???  
Tell me why you care  
Take my life and end it here

Unforgettable (2 times)
