

Tulips

Dave Garroway's Orchestra

When you said tulips
I knew that you're mine
When I caught you there
 Crying in the night
 Wearing my jacket
 Wearing that smile
I knew that I'd found you Were you unawares?
 Did it catch you out?
 Or did it break you in
 Right from the start?
 It's as pure as fire
 It's as pure as snow
I knew that I'd found you This could be an opportunity
 This could be an opportunity If you promise to let it
 If you promise to let it grow
 If you promise to let it
If you promise to let it grow 'Cos you're the one I love
 'Cos you're the one I love
 'Cos you're the one I love
'Cos you're the one I love 'Cos you're the one I love
 'Cos you're the one I love
 'Cos you're the one I love
'Cos you're the one I love 'Cos you're the one I love
 'Cos you're the one I love
 'Cos you're the one I love
 'Cos you're the one I love
