

Cruel World

Econoline Crush

Don't judge me with your prejudice

 Your church and God

Tell me what the hell you got

 That I want

 Chorus:

You can't save us all, the journey of the sick

We're never very long, in your cruel world

Don't trust me, comfort me with sentiment

 You don't mean

Don't flood me, in rivers of medicine

 I can't swim

 (Chorus)

Hold me, accountable for all I've done

 As I, will hold you

 (Chorus)
