Let's Pretend

Eric Carmen

I can't sleep nights
Wishing you were here beside me
Can't help feeling
That's the way it ought to beYou know we could run away
And I couldn't bear to hear
The things they'd say, oh noBaby, let's pretend
That tonight could live forever
If we close our eyes
And believe, it might come trueBaby, let's pretend
We could always be together
But for now just let me
Spend the night with youSomehow, someday
Things are gonna be so different
Don't cry, some way
I promise it will be all rightSo now that we're all alone
I couldn't bear
To ever take you home, oh noBaby, let's pretend
That tonight could live forever
If we close our eyes
And believe, it might come trueBaby, let's pretend
We could always live together
But for now just let me
Spend the night with youSo take me now
My love can't wait
We're almost there now darlin'
Darlin' hold me, hold me, hold meBaby, let's pretend
That tonight could live forever
If we close our eyes
And believe, it might come trueBaby, let's pretend
We could always live together
But for now just let me
Spend the night with youBaby, let's pretend
That tonight could live forever
If we close our eyes
And believe, it might come trueBaby, let's pretend
We could always be together
But for now just let me
Spend the night with you
