

Learn You Inside Out

Lifehouse

Sit my feet on the ground
It feels like the world's gravity drowns
When I'm with you I'm high Instead of hiding my face
My minds in your eyes
Can your love embrace me as I am? In the silence you stare at the world
Your eyes are screaming to be heard
I wanna learn you inside out And when time is not on our side
All we have is now
For the rest of our lives
Let's stay up all night In the silence you stare at the world
Your eyes are screaming to be heard
I wanna learn you inside out All the changes each time
Can't keep you inside of me
You're out of my mind
I wear you on my sleeve In the silence you stare at the world
Your eyes are screaming to be heard
I wanna learn you inside out I see all that you wanna be
Into your soul looking right back at me
I wanna learn you inside out
