My World

Avril Lavigne

Please tell me what is takin' place?
'Cos I can't seem to find a trace
Guess it must have got erased somehow
Probably 'cos, I always forget
Every time someone tells me their name
It's always gotta be the same
In my world
Never wore a cover-up
Always beat the boys up
Grew up in a five thousand population town
Made my money by cuttin' grass
Got fired by fried chicken ass
All in a small town, Napanee
You know I always stay up without sleepin'
And think to myself
"Where do I belong forever
In whose arms, the time and place?"
Can't help it if I space in a daze
My eyes tune out the other way
I may switch off and go in a daydream
In this head my thoughts are deep
But sometimes I can't even speak
Will someone be and not pretend, I'm off again in my world?
I never spend less than an hour
Washin' my hair in the shower
It always takes five hours to make it straight
So I'll braid it in a Zillion braids
Though it may take a friggin' day
There's nothin' else better to do anyway
When you're all alone in the lands of forever
Lay under the Milky Way
On and on it's gettin' too late out
I'm not in love this time, this night
Can't help it if I space in a daze
My eyes tune out the other way
I may switch off and go in a daydream
In this head my thoughts are deep
But sometimes I can't even speak
Will someone be and not pretend, I'm off again in my world?

I take some time
Mellow out
Party up
I don't fall down
Don't get caught
Sneak out of the house
Can't help it if I space in a daze
My eyes tune out the other way
I may switch off and go in a daydream
In this head my thoughts are deep
But sometimes I can't even speak
Will someone be and not pretend, I'm off again in my world?
Can't help it if I space in a daze
My eyes tune out the other way
I may switch off and go in a daydream
In this head my thoughts are deep
But sometimes I can't even speak
Will someone be and not pretend, I'm off again in my world?
