Weak

Nothing Painted Blue

There's Something about you
I get so weak
Trouble is I just cant seem to keep my cool
Everytime I see you, its driving me crazy
They tellin' me its nothing girl your trippin'
But they dont know how much I'm affected I cant escape it
Oh
Its how your droppin' hints on me
Pumpin' off the body heat
Baby you make me unravel
Ooo you got me weak
When you pass me by
When we're eye to eye
When I sleep at night
Wish I could read your mind
When you say my name
And ya close in on me
I can hardly breathe
Boy you get me weak
Trouble is this has been goin on for sometime
I'm gettin' addicted to your affection
Every second every minute I cant help my mind from drifting
In your direction
Sometimes I feel so high
Sometimes I feel so low
I dont know where its gunna go
Ooo you got me weak
You got me weak
When you pass me by
When we're eye to eye
When I sleep at night

Wish I could read your mind
When you say my name
And ya close in on me
I can hardly breathe
Boy you get me weak
So weak
When you look at me like that

You got me in a daze
Anit no going back now I dont know what to say
Got my face out myspace and tell me
That I'm the type of girl that really could make you happy
What I'm feelin what I think of you is out of control
Makes me hot leaves me cold
Dont know how to tell you but I gotta let you know
That you make my heart beat
You make me so weak
When you pass me by
When we're eye to eye
When I sleep at night
Wish I could read your mind
When you say my name
And ya close in on me
I can hardly breathe
Boy you get me weak
Tell me that you want me baby
Are you gunna keep me waiting?
I know that you feel me baby
Come on boy I'm goin crazy
Tell me that you want me baby
Are you gunna keep me waiting?
I know that you feel me baby
Come on boy I'm goin crazy
