

Take Me Away

Janet Jackson

Once upon was a dream that sounded crazy, baby
If fairy tales are mine, you would be the one that saved me, oh baby
Any time I feel [?], you are my paradise
You [?], don't even know it
So even with a million miles distance between us
I know you'll be there to help me escape Take me away from here
Just somewhere where we disappear
Take me away from here
Oh somewhere where love has no fear You'll always be the spy that was sent to save me
My intimate danger
But who's playin' my mind, I'm about to lose it
But you're the game changer
Oh this silly heart of mine, lost in a cutie pie
It still turns me on, it keeps getting stronger
Ooh I get a natural high just looking in his eyes
So just hold me close, I'm waiting for you Take me away from here
Just somewhere where we disappear
Take me away from here
Oh somewhere where love has no fear
Take me away
Oh just take me away
Take me away from here
Just somewhere where we disappear
Take me away from here
Oh somewhere where love has no fear
