

Darlin' Companion

Johnny Cash

What's that?

Hey, what are you guys drinking in those tall, purple glasses?

What is that, rot guts?

(Home brew) Tea?Hey a little bit later on in the show

I'm going to do you a brand new song

That I wrote yesterday called San QuentinI'd like to ask my wife, June Carter, come back
Come here JuneHey, I wonder, I wonder if we can get Carl Perkins out to help us with this tine

(He probably would, he would probably help us)

June and I have been singing this song, out version of a John Sebastian song

Darling companionDarlin' companion, come on and give me understandin'.

And let me be your champion, a hand to hold your pretty hand in.

Darlin' companion, now you know you'll never be abandoned.

Love will always light our landin', I can depend on you.Oh, a little saucy mare like you should have a steed.
Oh, a little bridlin' down from you is what I need.Darlin' companion, now you know you'll never be abandoned.
Love will always light our landin', I can depend on you.Darlin' companion, come on and give me understandin'.

As long as we keep laughin', bear in mind just what could happen.

Darlin' companion, I tell the mountains and the canyons,

Long as I got legs to stand on, I'm gonna stick by you.Oh, a little saucy mare like you should have a steed.
Oh, a little bridlin' down from you is what I need.Darlin' companion, I tell the mountains and the canyons,
Long as I got legs to stand on, I'm gonna stick by you.Darlin' companion, I tell the mountains and the canyons,
Long as I got legs to stand on, I'm gonna stick by you.Thank you very much
