

# Here In My Heart

**Tiffany**

Sometimes there's a time you must say goodbye

Thought it hurts you must learn to try

I know I've got to let you go

But I know everywhere you go

You'll never be far

Cause like the light over bright star

You'll be shining in my life

You're gonna be right

Chorus

Here in my heart

That's where you'll be

You'll be with me here

Here in my heart

No distance can keep us apart

As long as you're here in my heart

Won't be any tears falling from these eyes

Cause when loves true love never dies

It stays alive forever

Time can't take away what we have

I'll remember our time together

You may think our time is true

But I'll still have you

Chorus

I know you'll be back again

And till then

My heart is waiting

Chorus
