

You On a Good Day

Sugababes

You're messed up
From your chromosomes to your enzymes
Remember the time when you took my ride
I had to get it from the impound
My favorite rims were gone
And later when I asked you 'bout it you just said, yeahBut then at least you didn't crash it
If you had some cash left
From selling my rims in the car park
Behind the barAnd baby, that's you on a good day
And baby, that's you on a good day
Disaster is always just a beat away
But baby, I'm sticking with you anywayYou're messed up
Like when I went to Tokyo for promotion
And got back I had a bill for two G'sFrom when you fell asleep
Calling me overseas
Asking 'bout my code for the cash machine
And you just said, yeahBut you tried to keep the house neat
But then your new party friends
Went and called for some stripper again
I just said
(Fine)And baby, that's you on a good day
And baby, that's you on a good day
Disaster is always just a beat away
But baby, I'm sticking with you anywayAnd baby, that's you on a good day
And baby, that's you on a good day
Disaster is always just a beat away
But baby, I'm sticking with you anywayLadiesOoh, ooh, ooh,
Ooh, ooh, ooh, ooh
Ooh, ooh, ooh
Ooh, ooh, ooh, oohLet me get a beatI want it, I hate it, I need it
I want it, want it, want it
I hate it, I want it, I need it
Huh uh uhh (yeah, like that)
I want it, I hate it, I need it
I want it, want it, want it
I hate it, I want it, I need itBut you tried to keep the house neat
But then your new party friends
Went and called for some stripper again
I just said

(You're gonna make it up to me, you know you are)And baby, that's you on a good day

And baby, that's you on a good day

Disaster is always just a beat away

But baby, I'm sticking with you anywayAnd baby, that's you on a good day

And baby, that's you on a good day

Disaster is always just a beat away

But baby, I'm sticking with you anywayAnd baby, that's you on a good day

And baby, that's you on a good day

Disaster is always just a beat away

But baby, I'm sticking with you anyway
