Wasteland

The Playing Favorites

Can you see us now? We're on our own
And every chance has just come and just gone
Now it looks so dark and so cold
Think of the minds we sold
We'd better speak now
We'd better speak now
We'd better speak now
We'd better speak now
I can remember things that looked so bright
And I could talk to you without all this spite
Can you picture all that's past?
Does your face deform so fast?
We'd better speak now
We'd better speak now
We'd better speak now
We'd better speak now
'Cause when I stop and look into your head
I think of all the things that you said
When I look up into your eyes
I see the creature that I despise
Kill now
Kill now
Kill now
Kill now
Can you see us now? We're on our own
And every chance has just come and just gone
I've been wrong but you've been unkind
There's so much more that I can't find
Wasteland
Wasteland
Wasteland
