Paradigm (Extended Instrumental) [feat. A*M*E]

CamelPhat

When the days had gone
And the night was cold
I know this when you'll always find the truth
'Cause it's hard to know
What your looking for
Waiting out here
Working under skirt
It's a reflection of the mind
Wasting time
When you're searching for the one you know you are
Lost inside a senseless
Paradigm
Understand your prideHearts go hard to seek attention
Eyes go blind to feel
Temptation
Everybody needs salvation and love
Salvation and love
SalvationHearts go hard to seek attention
Eyes go blind to feel
Temptation
Everybody needs salvation and love
Salvation and love
Salvation and loveWhen the days had gone
And the night was cold
I know this when you'll always find the truth
'Cause it's hard to know
What your looking for
Waiting out here
Working under skirtIt's a reflection of the mind
Wasting time
When you're searching for the one you know you are
Lost inside a senseless
Paradigm
Understand your prideHearts go hard to seek attention
Eyes go blind to feel
Temptation
Everybody needs salvation and love
Salvation and love
SalvationHearts go hard to seek attention

Eyes go blind to feel
Temptation
Everybody needs salvation and love
Salvation and love
Salvation
