## **Circles**

## **Bob Mould**

Star bright so stunning and brilliant
The circle keeps spinning around me
My love, my God, what have I done to you
I've lost my one in a millionI go insane a thousand times
My circle of friends is shrinking down
I get so far down I can only hope
I jump through the way it gets lonely nowIt keeps spinning around me
It keeps spinning around me
It keeps spinning around me
It keeps spinning around meFor Tuesday I walk to the village
And I know that my vote doesn't count any more
I got my opinions about you
I keep them inside of the ballet boxI stuff all my thoughts and my feelings down
I get so far down I got too far gone
I've lost my one in a million

Disappears my ballonet is gone(Reaching out taking my hand)

Oh, you make me understand that life is too short now

(Reaching out taking my hand)

And we don't have the time we had when we were youngerMy love, my God, I am sorry

For everything we've been through

When I cry, I see millions of circles

And the sky so blueNo body deserves to be lonely

No one should be left alone

Because time doesn't wait it will probably accelerate

As the days and the months and the years go by When I cry, I see millions of circles

When I cry, I see millions of circles nowMy love, my God, I am sorry

For everything we've been through When I cry, I see millions of circles And the sky so blue
