My Little Love

Gordon Lightfoot

I've got a song that it is my mind
My little love who is never unkind
"I'm a poet and I'm better off dead"
These are the words she saidDown by the breadline, pickin' up dough
Hand me the guitar, there I'll go
I would rather make a living instead
Instead of bein' in the redMy little love from the world outside
Helpin' me keep, turnin' the tide
Come and meet me by the neon light
And I'm hopin' you'll make it alrightI'll do anything you see fit, my little loveMy little love movin' in my soul
My little love who will never turn cold
It doesn't matter if I ain't shaved
It doesn't matter if I ain't behavedMy little love you been on my side
Helpin' me keep, turnin' the tide
Havin' a hard time livin' right now
Havin' a fine time showin' you howMy little love from the world out there
Helpin' me keep, a-doin' my share
Come and meet me by the neon light
And I'm hopin' you will make it alrightI'll do anything you see fit, my little loveI've got a song that it is my mind
My little love who is never unkind
"I'm a poet and I'm better off dead"
These are the words she saidDown by the breadline, pickin' up dough
Hand me the guitar, there I'll go
It doesn't matter if I ain't shaved
It don't matter if I ain't behavedI got a light that is in my soul
I got a love that'll never turn cold
Come and meet me by the neon tonight
And I'm hopin' you'll make it alrightI'll do anything you see fit, my little love
I'll do anything you see fit, my little love
