

# Build a Fire

Frank Foster

The work week been way to long  
Ain't been enough Waylon on on the radio To get a good old boy by... No

The achin back its just gettin old

You just want to get a handful of somethin cold  
A little somethin to hold in your four wheel drive

Call up all your buddies and build a fire

Ya can can-up your cooler drop the gate on down

Pop a top tonight get right in your home down

Get on out in the country

Where we pile it on a little higher

Call up all you buddies and build a fire

So you want to have a round with the regular joes

hear em lyin about fishin at the honey hole

And the buck they rolled with their left front tire

Grab some buckets and sticks and wood

And some lawn chairs for the girls and your good

Where headed tonight to get tight like some new barbed wire

Call up all your buddies and build a fire

Ya can can-up your cooler drop the gate on down

Pop a top tonight get right in your home down

Get on out in the country

Where we pile it on a little higher

Call up all you buddies and build a fire

You want the cure all for anything

Between the first of October and the first of spring

Just dont forget to bring a match to light up

Get on in here and gather round

And back hand any man who tries to turn this down

Cause this one here got the sound of an all nighter

Call up all your buddies and build a fire

Ya can can-up your cooler drop the gate on down

Pop a top tonight get right in your home down

Get on out in the country

Where we pile it on a little higher

Call up all you buddies and build a fire
