

Window Shades

U.S. Girls

I won't I won't I won't
I won't I won't I won't
Think about you every time I hear that tune
I won't I won't I won't
Wonder if you think about me too
I won't I won't I won't
Ask all your men how you are doing
I won't I won't I won't
Feel no regret pretend that I'm glad that we met
I won't I won't I won't
Cause I last know ...? what I know so you
Better call that number twice
Hoping that you'd pick up this time
I haven't spoken with you
for awhile and now baby
I know you know I know
I think about you even so
Sihlouettes on the window shades in L.A.
And you made me
And what if I left it all up to you
I'd still be waiting
I'm no fool
What If I left it all up to you
What if I left it all up to you
What if I left it all up to you
What if I left it all up to you
I'm no fool
I'm nooooo fool
Better call that number twice
Hoping you'd pick up this time
I haven't spoken with you for awhile and now baby
Just apologize
Take a moment to recognize
That's me on the other end
Still waiiitiing
How could I leave it all up to you
I'm that fool
How could I leave it all up to you
I'm that fool

How could I leave it all up to you
How could I leave it all up to you
How could I leave it all up to you
I'm that fool
I'm thaaat fool
How could I leave it all up to you
How could I leave it all up to you
I'm thaaat fool
