Lies

Steril

I never wanna miss my TV cancel set
I'm watching all the shows and wait for spots and breaks
You couldn't stop the way out TV talk and talk
My life is like a spot and all identifies

To switch a resist capability
It starts to grasp me over
I'm fighting back, I'm individual
Living in clover

Each time you speak I feel your lies
You try to provoke you're in disguise
The time to see gets outta lines
No chance to resist you don't deny

The holy thing we pray it must be made by god
We know every song - we learn very fast
I try to get rid of the publicity
Avoid the television ÃƒÂ¢?? gonna catch me everywhere.

I want to lick your fingers
