

# Overcome

## Live

Even now the world is bleeding  
But feeling just fine all numb in a castle  
Where we're always free to choose never free enough to find  
I wish something would break 'cause we're running out of time And I am overcome, yeah  
I am overcome  
Holy water in my lungs  
I am overcome These women in the street pulling out their hair  
My master's in the yard giving light to the unaware  
This plastic little place is just a step amongst the stairs And I am overcome, yeah  
I am overcome, baby  
Holy water in my lungs, yeah  
I am overcome So drive me out, yeah out to that open field  
Turn the ignition off and spin around  
Your help is here but I'm parked in the open space  
But locking the gates of love And I am overcome, oh yeah  
I am overcome, baby  
Holy water in my lungs, yeah  
I am overcome, yeah I am overcome, oh Lord  
I am overcome, baby  
Holy water in my lungs  
Holy water, holy water  
I am overcome Beautiful drowning this beautiful drowning  
This holy water, this holy water, is in my lungs  
And I am overcome, I am overcome, yeah  
Heh, I, heh, I, heh, I am overcome, I am overcome Lord
