

# Leeches

## Sparzanza

Leeches  
We are creatures  
We leave her as we trustIf you say this way  
I will take that way  
'Til for the fire will it die, frySpit me out  
I'm glad I don't belong  
Save me the speech  
You'll be forgotten and goneIt burns  
It rips  
It hurtsLeeches  
They preach to us  
Where's the wisdom from the crowdSpit me out  
I'm glad I don't belong  
Save me the speech  
You'll be forgotten and goneIt burns  
It rips  
It hurtsThey made you believe  
Your turn  
The chance of a lifetime  
How does it feel to be alive?Let's hear it for the bullet  
That can't be heard  
Pray to yours that I stealSpit me out  
I'm glad I don't belong  
Save me the speech  
You'll be forgotten and goneIt burns  
It rips  
It hurtsThey made you believe  
Your turn, it hurts  
The chance of a lifetime  
How does it feel to be alive?
