

# Forever I Will Do It

## Camp Chayolei Hamelech

Far into the heavens, in a place so pure and clean  
Souls are gathered by the throne  
A melody is ringing, the angels are singing  
Rejoicing on the making of a home

A gentle voice announces, my son, my little one  
The master plan is near and almost through  
There is a generation that is just for you  
The greeting of Moshiach Tzidkeinu

Naaseh v'nishma, forever I will do it  
Like the stars in the sky, I will never cease to shine  
I will give myself to You, Hakadosh Boruch Hu  
Bechol d'rachechah da'eihu

But listen here neshama, so willing to adhere  
In this life, you are on your own  
The road ahead is winding, pleasures are so blinding  
At times you may feel you're all alone

Nothing will be lacking  
But the truth is still concealed  
The darkness that brings lies and so much grief  
This golus of illusion is causing such confusion  
Neshama'le, do you still agree?

Naaseh v'nishma, forever I will do it  
Like the stars in the sky, I will never cease to shine  
I will give myself to You, Hakadosh Boruch Hu  
Bechol d'rachechah da'eihu
