Outcast

Excessum

I just couldn't connect there
Felt left out, I was scared
Totally unplugged from all things around me
So I sat down on moon
And wached the Earth move
Even thought I tried so hard, I still
Couldn't reach out there...
[chorus]At times the world
Is moving on way too fast
Stop for a while
To realize what's happening
Every time I feel I'm back on the track
I'm burning my fingers again
At times I know that I'm

Too lost and confused
Just wanna find
A place I can call mine
I wanna feel that I'm not an alien
Outcast of society
Guess I spent almost ten days
Floating in outer space
Wishing that there was someone who'd
Encourage me
Thought 'bout reincarnation
Wondered what is it like there
Will it be a bit better for someone like
Me in next life...
[chorus]
