

# Outcast

## Excessum

I just couldn't connect there  
Felt left out, I was scared  
Totally unplugged from all things around me  
So I sat down on moon  
And watched the Earth move  
Even thought I tried so hard, I still  
Couldn't reach out there...  
[chorus]At times the world  
Is moving on way too fast  
Stop for a while  
To realize what's happening  
Every time I feel I'm back on the track  
I'm burning my fingers again  
At times I know that I'm

Too lost and confused  
Just wanna find  
A place I can call mine  
I wanna feel that I'm not an alien  
Outcast of society  
Guess I spent almost ten days  
Floating in outer space  
Wishing that there was someone who'd  
Encourage me  
Thought 'bout reincarnation  
Wondered what is it like there  
Will it be a bit better for someone like  
Me in next life...  
[chorus]
