

This Year (It's All About You)

3LW

I spent this whole year doin' my thang
Just thinkin' 'bout me
But that's about to change
'Cause this year it's all about you, baby I made a lot of promises last year, I guess
And though I didn't keep them all, a few I kept
I even made a few decisions that I now regret
And for the New Year, ooh dear this is gonna be the best one yet
It's all about you This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year you come first, everybody else comes last There were times when you didn't know where I was at
I'd see your number on my cell knowing well I need to holla back
Any other guy would leave if they were treated like that
It was no parade but you stayed, so this year it's a wrap
It's all about you This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year you come first, everybody else comes last This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year you come first, everybody else comes last I didn't mean to diss you, babe, ignore or dismiss you, babe
Hear me out and listen, babe, this year and more is yours
'Cause you deserve better than this, no doubt
We got a few minutes 'til this year runs out
So listen dear, we've shed our last tear this year This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year, you come first, everybody else comes last This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year you come first, everybody else comes last This year everything is all about you
This year you're a part of everything I do
This year if there's anything you want all you gotta do is ask
This year you come first, everybody else comes last
