I Believe In You

Lambchop

Hey hey hey
You went to the heart of me girl
And in a way way way
You are the start of me (you)
And no matter where when how
You're always a part of me
So listen to me girl girl girl
I fight for what I believe

And I believe in you
When hope keeps on slippin' away
And I believe in you
When trouble is tryin' my faith
I believe in you
And I always care what you say
'Cause I believe in you
As certain as night follows the day

You're like my favourite song song song
I'm wrapped in your melody
Your words they keep me warm warm warm
Or cool as a summer breeze (you)
Always sing along long long
I know you from a-z
Never have to say why why why
It's as easy as I breathe

And I believe in you
When hope keeps on slippin' away
And I believe in you
When trouble is tryin' my faith
I believe in you
And I always care what you say
'Cause I believe in you
As certain as night follows the day

And I believe in you
When hope keeps on slippin' away
And I believe in you
When trouble is tryin' my faith

I believe in you
And I always care what you say
'Cause I believe in you
As certain as night follows the day
