

Burn's my Eye

Bass Drum Of Death

I've always been about the chase
I don't know why
I fall completely on my face
She burns my eye
and when I'd rather do, some stupid things with you
I'll always be about the chase
I don't know why
and it's my great escape now when I lose it
Just cut the lines and keep it moving
I never feel this way
I don't go through it
It really stings when she burns my eye
Eye
I'm always deep in empty space
I don't know why
but when I get back in my place
She burns my eye
and when I'd rather do some stupid things with you
I'm always deep in empty space
I don't know why
and it's my great escape now when I lose it
Just cut the lines and keep it moving
I never feel this when I don't go through it
It really stings when she burns my eye
Eye
