No Warning Shot

Six Feet Under

Die
DieThe end of all law
4 shots fired another body falls
I execute the guilty violently
Undercover killing spree, no warning shotDie motherfucker, die, die
Die motherfucker, die, die
Die motherfucker, die, die
I'll put a bullet between your fucking eyesPull the trigger, cock the hammer back
5th shot to the back of your neck
You're not a threat, you're a fucking disease
Eradicate the enemyDead body, another crime scene
Blood-stained pavement, chalk outline
Bullet holes, you're dead and cold
The end of all law, no warning shotDie motherfucker, die, die
Die motherfucker, die, die
Die motherfucker, die, die
DieI put the gun to the side of your head
Squeezing the trigger
Powder burnt skin, breaking through cranial bone
Decayed brain tissue implodesJust another life that you thought you could control
Just another pig, dead, with some extra holes
You better think again, before I kill again
You won't survive, when the bullets start to flyProtect and serve yourself
Dug your own grave, now rot
In that hole decay
The murder will never stop, no warning shotDie motherfucker, die, die
Die motherfucker, die, die
Die motherfucker, die, die
I'll put a bullet between your fucking eyesDie
Die
Die
Die
