

Sweet Tooth

Blue Hawaii

Here's some tea, I don't come around
Instead I leave you by yourself
Everyone always tests the ground
When they try to fly up south
It might seem early I just need
I just need to talk it out
To hold some, only energy through whole out

Seems like sweet souls get some
We finally push and shout, shout,
Oh it seems like we can't put down
And there's nothing, nothing else around now
When we found, when we found
When we found, when we found
When we found, when we found

Tell me what you wanna, go harder, go harder
Tell me what you wanna
Tell me what you wanna, go harder, go harder
Piece of me, it fits ok...
That's what I wanted, that's what I wanted
I still love it on my day side
That's what I wanted, that's what I wanted
Round, round, round, round, round, round
Round, round, round, round, round, round
Round, round, round, round, round, round
Round, round, round, round, round, round.
