

# Summer Love

## Joel Crouse

I threw a little rock, against her window  
and I held my breath as she climbed down  
In a white sundress, she looked like an angel  
Whose feet had never touched the groundStolen time was ours to lose, by the light of a July moon  
We were gone in seconds flat  
And she said trust me boy so I followed her voice  
To find out where the fun was atand She said take me where ya want to  
and I couldn't get there fast enough  
By the lake, we made some memories  
A night that every boy dreams of  
(made for me & my summer love)  
Made for me and my Summer LoveThought that July, couldn't get much hotter  
Until I saw her jump right in  
So I waded out, into that water  
Even though I could not swimNot by choice we had to wait  
Had to get her home cause it was late  
Before her dad could kill me dead  
But then she grabbed my hand and I knew right then  
I was in over my headShe said take me where ya want to  
and I couldn't get there fast enough  
By the lake, she said I want you  
A night that every boy dreams of  
(made for me & my summer love)  
Made for me and my Summer LoveThat girl was so full of surprises  
I think of her and my temperature rises  
Ohhh  
Whew!She said take me where ya want to  
and I couldn't get there fast enough  
By the lake, she said I want you  
A night that every boy dreams of  
(made for me & my summer love)  
Made for me and my Summer LoveOhhh  
Yea yea, yea yea  
Oh my Summer Love
