

Sweet South Breeze

Walter Egan

She blew in on a sweet south breeze

Looking like Dixieland jamboree

yeah

She was a diamond sparkled to me so bright

And I was astounded I thought I saw the starlight

With a Sweet South Breeze come to take me home

Ooh

I was alone and I kept to my own

She showed me things that I could never have known

Now I can be happy each and everyday

And when she decided you know I'm feeling that a way

It's a Sweet South Breeze come to take me home

Now it's a Sweet South Breeze come to take me home

Ooh!

I was through with love Hey I thought it was funny

And every girl I that I ever called honey

They Let me say they let me sorry I know, yeah I know

Oooh

And I know she won't do that.

Awww

(Instrumental)

She blew in and she blew me away

She got me up and got me to stay

Now I'd like to say everything will be fine

Just me and her yeah we're just taking our time

It's a Sweet South Breeze come to take me home

Now it's a Sweet South Breeze come to take me home

It's a Sweet South Breeze come to take me home

Oh alright.
