

True Love Is a Golden Ring

The Wrights

True love is a golden ring
Like the vows we made its a precious thing
Sent from above on silver wings
And true love is a golden ring
Down a winding road with many turns
Through fire and smoke and bridges burned
Well, Ive held my share of strangers hands
Now holding yours, well, I understand
True love is a golden ring
Like the vows we made its a precious thing
Sent from above on silver wings
True love is a golden ring
Love is so much more than a one night stand
Like the endless turn of a wedding band
Looking in your eyes I found the truth
After all this time I found you
True love is a golden ring
Like the vows we made its a precious thing
Sent from above on silver wings
True love is a golden ring
True love is a golden ring
True love is a golden ring
True love is a golden ring
True love
