Don't Hold Your Breath

Nutrajet

Don't hold your breath 'cause we're running in circles
Silence runs along phone lines
I feel like I am swimming through pavements
And then the dark throws me a lifeline
I'll be the sky that lights up with fireworks
Whenever Novembers comes
And you could be the greatest thing that's happened to me
Though I don't know you now
Don't hold your breath 'cause we've already been here
There are trees to remember you by
Those trees are cold but they're anticipating
The sun is gonna give the kiss of life, oh
I'll be the sky that lights up with fireworks
Whenever Novembers comes
And you could be the greatest thing that has happened to me
Though I don't know you now, oh
I'm blowing breath on the windowpane
Sketching your name with my finger
I'm blowing breath on the windowpane
Sketching your face with my finger
Oh, I'll be the sky that lights up with fireworks
Whenever Novembers comes
And you could be the greatest thing that has happened to me
Though I don't know you now
Oh, I'll be the sky that lights up with fireworks
Whenever Novembers comes
And you could be the greatest thing that has happened to me
Though I don't know you now
