Feel This Way

B2k

Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Like best friends, were the words you said to me
Got me wondering to myself how could this be
They way we touched was more than a fantasy
Just knew that what we had was more reality
My wifey is who I thought you'd be
Maybe one day raise a C H I L D
Broke my heart when you didn't wanna be with me
And all this time I was a fool in L O V E
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Beautiful, baby that was you and I
Now everyday I got to sit and wonder why
The way we kissed, got a feeling deep inside
What I'm hearing girl, it has to be a lie
How could you, just keep me to the side?
You never even gave this thing a T R Y
Don't understand these feelin's you try to hide
Now all the sudden you been actin' F U N N Y
How could you do this to me?
You led me to believe you wanted me
Now I can't change how I feel inside
Girl tell me why?
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl

But knowing you only wanted to be friends
Oh yea, baby
You wanted to be, you wanted to be
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Why, why would you make me feel this way?
Make me feel like we would never separate
Make me feel like you wanted to be my girl
But knowing you only wanted to be friends
Why, why would you make me feel this way?
Make me feel like we would never separate
Wanted to be my girl, no no
