Criminal Past

Motor Ace

So what exactly are you saying?
You'd like to live your life between the sheets
And no destination
The hour's getting way past getting late
To find the public opinion
You're talking big it comes too easily
I'm not prepared to entertain
You salivate when someone tells you straight
Young enough to always push your luck
I keep my fingers crossed, you keep them up
Got a reason to get up this morning
Got inspired by the fear of being last
Don't deny your criminal past
A reason to get up this morning
Got inspired by the fear of being last
Don't deny your criminal past
Deny your criminal past
So what exactly are you
So what exactly are you saying?
You'd like to live your life by talking cheap
It's no consolation
The hour's getting way past getting late
And now it's time to forget
All the people, there's too much to regret
But now it's carved in stone
Just hang up the phone forever
You've been arrested, and you've been inspected
But you...
Young enough to always push your luck
I keep my fingers crossed, you keep them up
Got a reason to get up this morning
Got inspired by the fear of being last
Don't deny your criminal past
A reason to get up this morning
Got inspired by the fear of being last
Don't deny your criminal past
Deny your criminal past
Got a reason to get up this morning
Got inspired by the fear of being last

Don't deny your criminal past
A reason to get up this morning
Got inspired by the fear of being last
Don't deny your criminal past
Deny your criminal past
Yeah, your criminal past
