

# Forget You

## October Project

Sometimes i hurt you and i  
Don't know why  
I guess it reminds me i'm  
Alive  
Sometimes i laugh until i  
Start to cry  
Until there is nothing left  
Inside  
Sometimes i love you and some-  
Times i lie  
Until there is nothing left  
Inside of me is something that i  
Wanted to be true  
And i will have to lie to try to  
Forget you  
There is something happening  
Happening out of our control  
Something like an accident happening  
Falling...  
Falling...  
Oh...  
Sometimes i hurt you and i  
Have to hide  
I guess you remind me i'm  
Alive  
Sometimes i want you like i  
Want to die  
Until there is nothing left  
Inside of me is nothing that is  
Not inside of you  
And i have had to lie to try to  
Forget you
