Spitshine

dredg

I harmonize with a million screaming laughs
That haunted those before us
Preaching symphonies while the chorus yelled, "Unity"
It's based on facts, it's based on factsYou spitshined my corroded halo
Then packaged it away
You spitshined my corroded halo
Then left it to decayWill you watch your step?
The boring story's left
"You're feeling lost in here," she said
Come in here, the pain won't lastYou spitshined my corroded halo
Then packaged it away
You spitshined my corroded halo
Then left it to decayTake this weight off my shoulders
And move it to my brain
Take this weight off my shoulders
And move it to my brainYou spitshined my corroded halo
Then packaged it away
You spitshined my corroded halo
Then left it to decayYou spitshined my corroded halo
Then packaged it away
You spitshined my corroded halo
Then left it to decay
