

# Stranger (feat. Mikky Ekko)

[Chris Malinchak](#)

Baby, what's love?  
And what's the mystery for alone?  
Cos I can't let it go, this feeling  
I wanna be the one  
Wanna be the one, you show So let me be your stranger  
And feel your love for the very first time  
And you know the only danger  
Is that I'm giving you all of my pride  
Is that I'm giving you all of my pride Tell me, what's missing?  
And where did all the good love go?  
Cos I've been feeling so, so lonely  
I wanna be the one  
Wanna be the one, you show So let me be your stranger  
And feel your love for the very first time  
And you know the only danger  
Is that I'm giving you all of my pride Can you see my love?  
Looking through your eyes  
Can you see my love?  
From the other side So let me be your stranger  
And feel your love for the very first time  
And you know the only danger  
Is that I'm giving you all of my pride Can you see my love?  
Looking through your eyes  
Can you see my love?  
From the other side Can you see my love?  
Looking through your eyes  
Can you see my love?  
From the other side
