Light As A Feather

Katy B

What does it take to make you feel, get you excited
To see you smile?
What does it take to see my world, I know youll like it
For once go wild
Baby, but youre so cold with me, be free, yeah
Come see the sights Lover, theres a city youve never seen before
Come live by nightWhats it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah
(Lets go)
Get down yeah x3What does it take to feel that beat, let it inside you
Touch your soul
What does it take to just let the rhythm guide you
And take control
Baby, dont be scared, dont be self concious
Close your eyes
Lover, are you feeling light as a feather?
Ready to flyWhats it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah x 4
Whats it gonna take for me to see you get down yeahIggy Azalea:
Top of the penthouse, come party with us
Lose control,
I heat up when we touch
Take for tonight belongs to us
Ill be your drug, come get high, feel my rush
Baby, baby, lets get crazy
Maybe Ill introduce you to amazing
Show me your wild side,
Ill be your Vegas
Dont hold back, its yours for the takingWhat does it take to make you feel, get you excited
To see you smile?
What does it take to see my world, I know youll like it
For once go wild
Baby, but youre so cold with me, be free, yeah
Come see the sights Lover, theres a city youve never seen before
Come live by nightWhats it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah
