

# Never Give Up

## Liberty X

We were looking 'round  
Waiting for the right time  
Everybody saying careful what you do  
You've got everything to prove, they were saying  
You gotta do it now 'cos if you don't  
You know you're gonna fade away  
You gotta listen to what we say  
Gotta realize you don't know the game like I do  
We drew the line  
Used our own minds  
Chose not to take their advice  
We didn't know  
Which way to go  
So we just followed the signs  
Never let them get you down  
You've got to turn around  
And find your own way to it  
You know it's up to you  
To pull yourself through  
All the troubles it's a struggle  
But be strong and you'll do it  
Never let them get you down  
You've got to turn around  
And find your own way to it  
You know it's up to you  
To pull yourself through  
All the troubles it's a struggle  
But be strong and you'll do it
