

Dancers

Axel Flovent

[Verse 1]

In your heart, there's a cave
And you sit there, when you're afraid
Don't turn on the lights
And I will comfort you[Verse 2]

I'm still holding on
While you are letting go
It's keeping me frustrated
How everything goes on like this[Chorus 1]
If we were dancers, if we were dancers
Light would count our steps and nothing would stop us
The brighter it gets
There's no way to go around
If we were fighters, if we were fighters
Our hands would start itching if something falls down
The brighter it gets
There are no ways to go around[Verse 3]
You feel bit out of sight
When you're lying next to him
It's not what you expected
But everything still feels safe[Bridge]
But inside you're eyes
You don't see it
You don't see the truth
But inside, your heart
You feel blind, you feel blind[Chorus 2]
If we were dancers, if we were dancers
Light would count our steps and nothing would stop us
The brighter it gets
There's no way to go around
If we were fighters, if we were fighters
Our hands would start itching if something falls down
The brighter it gets
There are no ways to go around
