

# Cousins Of The Antichrist

[Chelsea Wolfe](#)

Cousins of the antichrist are hiding everywhere  
Watching as we let our guard down smiling as we eat their lies  
Cousins of the antichrist we're feeding their ways  
Light eyes and dark minds and feel nothing  
(All went down  
A long way  
Found there love  
All in vain  
All went down  
All insane  
Found there love  
All in vain)  
Cousins of the antichrist don't look me in the eye  
Dirty mind and crooked spine but heart is pure, heart is the lords  
(All went down  
A long way  
Found there love  
All in vain  
All went down  
All insane  
Found there love  
All in vain)
