

It's a Beautiful World

Noel Gallagher's High Flying Birds

It's like a song
It's like a prayer
It's like dream, you had, one night
Put it over there Wear it like a face
Never seen before
Keep it with the key, you thought, you found
Lyin' on the floor It's a beautiful dream
A beautiful night
It's a beautiful world
When we dance in the light
Only it is real
Only in his mind, it's right
It's a beautiful dream
A beautiful night
It's a beautiful world
Only in his mind, it's right Wipe away the tear
It only comes with peace
Wipe it with a rose, of love, you saw
Fallin' underneath Do it like a dance
Do it for a while
But when it's gone, you know, it's gone
You're walking down a mile It's a beautiful dream
A beautiful night
It's a beautiful world
When we dance in the light
Only it is real
Only in his mind, it's right
It's a beautiful dream
A beautiful night
It's a beautiful world
Only in his mind, it's right Attention, attention!
Madames, monsieurs
Accrochez-vous bien et tr  s bons adieu
L'humanit   fond aux deux p  les Attention, attention!
Madames, monsieurs
Les fronti  res se rep  rent
Inspirer, expirer monoxyde de carbone D  tendez-vous et reposez en paix
C'est juste la fin du monde It's a beautiful dream
A beautiful night

It's a beautiful world
When we dance in the light
Only it is real
Only in his mind, it's rightIt's a beautiful dream
A beautiful night
It's a beautiful world
When we dance in the light
Only it is real
Only in his mind, it's right
Only in his mind, it's right
Only in his mind, it's right
Only in his mind, it's right
Only in his mind, it's right
