

# Shine Like Stars

## Glasvegas

I see the black fade to gray  
I feel forwards as the only way  
Yesterday, all my happiness seemed so far away  
Now it looks as though it's here to stay  
Shine like stars  
Shine like stars do  
Cast a wish to the moon afar  
Spare a thought for the ones that matter  
If we could only mend the breaks  
Open up our arms to fate, sweet fate  
And shine like stars  
Shine like stars  
Shine like stars do  
I see the black fade to gray  
I feel forwards as the only way  
Hold on tightly and hope it all lasts  
Celebrate the future, forget the past  
Shine like stars  
Shine like stars do  
Shine like stars  
Shine like stars do
