More Than She Knows

Spin Doctors

I know she's got everything she wants
I know she's got everything she needs
I know she needs that more than she knowsI know she's got everything she wants
I know she's got everything she needs
I know she needs that more than she knowsShe come on so sweet and kind
I wonder if I'm on her mind

She always turns away

I know I'll get her, one of these daysI know she's got everything she wants
I know she's got everything she needs

I know she needs that more than she wants, heyI know she's got everything she wants
I know she's got everything she needs

I know she needs that more than she knowsHas more than she knows wants, yeah

More than she knows wants, yeah

More than she knows wants, hey
