

A Violent Sky

Apparat

I've seen you all along
I've seen you all along
The place they called it home Coming down beneath a violent sky
Coming down beneath a violent sky
Coming down beneath a violent sky
Coming down beneath a violent sky These skies were happy kids
These skies were happy kids
The music going loud
The music going loud
To move here under the cloud of screaming
To move here under the cloud of screaming
To move here under the cloud of screaming
To move here under the cloud of screaming
To move here under the cloud of screaming
To move here under the cloud of screaming
