Cure For Love

Bonnie Raitt

You bring me roses
You give me kisses
You bring me moons and stars
That shine so high up in the sky
My heart is beating
Wild and crazy
Hope that I can find
A cure for this love
Could be, you want me
Could be, you care
Could be, the words you say
Are things that I just wanna hear
You got me nervous
Got me shaking
Maybe I can find
A cure for this love
Doctor, doctor
Give me healing
So I can stop this feeling
It's getting so much stronger
And I just can't go on much longer
Doctor please
Find me a way out of this love
When the phone rings
And no one answers
The letters comeback sayin'
'Lover Cannot Be Found'
Don't go lookin'
Don't bother searchin'
See it's 'cause your baby's
Found herself a cure for love
