For My Brother

Jhene

Oh yeah, oh, oh, oh Waves descending is crashing against the shores of unsure Ness So hard for me to, understand when doctors they cannot cure this I wish I could take away your pain, I wish I could trade places Man, I just want you to be OK, Man, I just wish I could erase this I know the life has a funny way, so I'm not complaining While I still got you here, I still got you here I hope that you can hear this! Don't give up, don't give up on us I just want you to hear this! Don't give up on us! See, when you were two I was born, And when I was two you were four And when I was four, you were six And now I'm just sitting here, reminiscing , You are more than just my brother, we grow up just like best friends I know that nothing lasts forever, but I don't want this to end

So don't give up, don't give up on us! I just want you to hear this! Don't give up on us! I Love til your last breath to the last... To forever ends and that's never And I won't stop loving you ever Do you understand? Till your last breath, to the last... Till forever ends and that's never Man, I won't give up on you ever Please just hear this!

Sometimes you gotta walk through the darkness to get to the light Sometimes you gotta get through the wrong shit to get through the right Alright! No matter how hard life gets, still gotta fight Sometimes you gotta walk through the darkness to get to the light

And if love is real and love can heal, on the real I would die for you Say if love was real and love can heal on the real I would die for you So don't give up, and don't give up. don't give up baby! I know you hear this! Don't give up, don't give up on us!

Sometimes you gotta walk through the darkness to get to the light Sometimes you gotta get through the wrong shit to get through the right Alright! No matter how hard life gets, still gotta fight Sometimes you gotta walk through the darkness to get to the light

I'll never give up on you, so don't give up on us You still gotta fight, you still gotta fight Please don't give up! Just don't give up! I had a dream last night and everything was alright And you were walking, you were talking just like everything was alright And I know it was for a reason, I won't stop or leave, I won't And if the angels call all night Baby please say that you'll stay in And if the angels call your name Baby please tell them that you'll stay I know that you can hear this Don't give up, don't give up on us! Hear me! Please hear this! I would die without you, I would die without you I would die without you! So don't give up on us!
